Chile easter island travel guide

Everyone deserves a holiday when it should be virtual. As travel information is available all over the world due to coronavirus infections, most people choose to stay inside to combat the spread of the disease. But that doesn't mean you can't make the trip to some exotic place. Imagen de Chile, the Chilean country's nonprofit brand organization, offers a free app called Chile 360. This app allows you to find some of the best and most beautiful places in Chile and Easter Island. Self-quarantine can be difficult for many people. While museums, attractions and even national parks have lots of virtual tours, they still don't feel like you're really there. The Chile 360 app allows people to explore the majestic Torres del Paine National Park, as well as the Atacama Desert and the mysterious and famous Moai on Easter Island. And since it has a 360 degree view, you can feel that you are actually hiking in Patagonia. The app can be used on a mobile device or VR headset for additional embedding. The app is available to both iOS and Android users. In addition to this impressive application, several Chilean museums, including Chile's historic National Museum, have their own virtual tours. Google Arts & Culture also has hundreds of other tours in Chile and beyond. And if you are an astronomy enthusiast, you can take a virtual tour of Santiago, the Chilean Observatory on the website of the European Southern Observatory. Check out these great attractions online or download the Chile 360 app to spend time in nature. More information about the app can be found in the App Store (iOS) and Google Play (Android).
